# Content

## Programme

RivEr/Generation\_LAB aims to build 'knowledge and action bridges' between the seemingly competing systems of ecology, mobility, and economy, as they interact and influence each other in our everyday urban and peri-urban environments.

This integrated approach proposes a methodology of intervention in consistency with the Sustainable Development Goals (UN, 2015), the Millennium Ecosystem Assessment (2005), and the New European Bauhaus (2021), in order to establish new relationships between cities and the natural environment, fostering beautiful, sustainable, and inclusive public spaces.

Co-funded by the  
Erasmus+ Programme  
of the European Union

RivEr/Generation\_LAB will consist of a Webinar Series, and a full time interactive workshop in Rome

- **Webinar Series**

14.04\_Sapienza 'Urban Planning'

28.04\_UAM 'Mobility'

12.05\_UAM 'Urban Economy'

26.05\_ULB 'Ecology'

09.06\_ULB 'Landscape Architecture'

23.06\_Sapienza 'Environmental Design'

- **Rome Workshop**

4-9.07
